SUBJECT: Waterford 3 SES
Docket No. 50-382
Environmental Qualification of Equipment - NUREG-0588

Dear Mr. Tedesco:

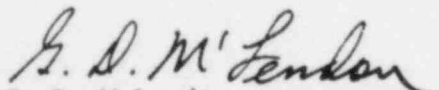

In December 1981 Louisiana Power & Light Co. submitted its response to the requirements of NUREG-0588, Environmental Qualification of Safety Related Electrical Equipment Exposed to a Harsh Environment.

The attached volumes are a revision of the original response. As in the initial response the revision consist of three major sections:

- a) An introduction and description of the methodology used to review the qualification of Waterford 3 equipment.
- b) A Master Equipment List of components evaluated, and
- c) Equipment Qualification Data Evaluation Forms (QDEF's).

In addition to these formal submittals to the NRC, a central file of qualification documentation has been established at the Waterford 3 site, and is subject to audit by the NRC.

Yours very truly,

G. D. McLendon
