Mr. Cecil O. Thomas, Chief  
Standardization and Special Projects Branch  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Amendment No. 23 to Facility Operating  
License No. R-37, Docket 50-20.

Dear Mr. Thomas:

This will acknowledge receipt of your letter of March 15, 1983, forwarding the above license amendment.

The word "system" was used in the original Technical Specification 4.1-1 but was omitted when the specification was revised to change the testing frequency from semi-annually to annually. As discussed on the telephone, it is requested that reference continue to be made to the "system", which word should be inserted after "ECS spray nozzle" on the fourth line of Specification 4.1-1.

Thank you for your attention to this matter, and please call if you should have any questions.

Sincerely,

*Lincoln Clark, Jr.*
