Director of Nuclear Reactor Regulation
Attention: Ms. E. Adensam, Chief
Licensing Branch No. 4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Ms. Adensam:

In the Matter of) Docket No. 50-328
Tennessee Valley Authority)

Operating license condition 2.F for unit 2 of our Sequoyah Nuclear Plant reads as follows:

TVA will provide a report prepared by the Kaman Sciences Corporation (KSC) on a full scale nuclear safety and availability analysis within six months from the date of the KSC report.

Since the issuance of the Sequoyah Nuclear Plant unit 2 operating license containing the above condition, KSC has been replaced as the contractor performing the analysis by Pickard, Lowe, and Garrick. The study by Pickard, Lowe, and Garrick is scheduled for completion by March 31, 1983 with a final report being provided to TVA by the end of June 1983. Therefore, TVA anticipates being able to submit the required report on or before January 1984.

If you have any questions concerning this matter, please get in touch with J. E. Wills at FTS 858-2683.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
