

MATERIALS LICENSE

Amendment No. 05

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 39, 40 and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee

- 1. Pashelinsky Smelting & Refining Corp.
- 2. 20 Carbon Place  
Jersey City, New Jersey 07305

In accordance with the letter dated March 10, 1994,

- 3. License number 29-19726-01 is amended in its entirety to read as follows:

4. Expiration date January 31, 1997

5. Docket or Reference No. 030-19158

6. Byproduct, source, and/or special nuclear material

7. Chemical and/or physical form

8. Maximum amount that licensee may possess at any one time under this license

A. Cadmium 109

A. Sealed source  
(Isotope Products Model XFB series or Amersham Model CUC-01)

A. Not to exceed 8 millicuries per capsule, or 50 millicuries per source holder

B. Americium 241

B. Sealed source  
(Isotope Products Model GF series or Amersham Model AMC 64)

B. Not to exceed 8 millicuries per capsule, or 50 millicuries per source holder

9. Authorized use

- A. and B. For use in Kevex Model 0202 x-ray analyzer for analysis of samples.

CONDITIONS

- 10. Licensed material shall be used only at the licensee's facilities located at 20 Carbon Place, Jersey City, New Jersey.
- 11. A. Licensed material shall be used by, or under the supervision of, Ramesh Patel or Brian Kaplan.  
B. The Radiation Safety Officer for this license is Brian Kaplan.
- 12. Sealed sources or detector cells containing licensed material shall not be opened or sources removed from source holders or detector cells by the licensee.
- 13. A. Sealed sources and detector cells shall be tested for leakage and/or contamination at intervals not to exceed 6 months or at such other intervals as are specified by the certificate of registration referred to in 10 CFR 32.210, not to exceed 3 years.

MATERIALS LICENSE  
SUPPLEMENTARY SHEET

License number

29-19726-01

Docket or Reference number

030-19158

Amendment No. 05

(13. Continued)

CONDITIONS

- B. Notwithstanding Paragraph A of this Condition, sealed sources designed to emit alpha particles shall be tested for leakage and/or contamination at intervals not to exceed 3 months.
- C. In the absence of a certificate from a transferor indicating that a test has been made within six months prior to the transfer, a sealed source or detector cell received from another person shall not be put into use until tested.
- D. Each sealed source fabricated by the licensee shall be inspected and tested for construction defects, leakage, and contamination prior to any use or transfer as a sealed source.
- E. Sealed sources and detector cells need not be leak tested if:
- (i) they contain only hydrogen 3; or
  - (ii) they contain only a gas; or
  - (iii) the half-life of the isotope is 30 days or less; or
  - (iv) they contain not more than 100 microcuries of beta and/or gamma emitting material or not more than 10 microcuries of alpha emitting material; or
  - (v) they are not designed to emit alpha particles, are in storage, and are not being used. However, when they are removed from storage for use or transfer to another person, and have not been tested within the required leak test interval, they shall be tested before use or transfer. No sealed source or detector cell shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.
- F. The test shall be capable of detecting the presence of 0.005 microcurie of radioactive material on the test sample. Records of leak test results shall be kept in units of microcuries and shall be maintained for inspection by the Commission. If the test reveals the presence of 0.005 microcurie or more of removable contamination, a report shall be filed with the U.S. Nuclear Regulatory Commission and the source shall be removed from service and decontaminated, repaired, or disposed of in accordance with Commission regulations. The report shall be filed within 5 days of the date the leak test result is known with the U.S. Nuclear Regulatory Commission, Region I, ATTN: Chief, Nuclear Materials Safety Branch, 475 Allendale Road, King of Prussia, Pennsylvania 19406. The report shall specify the source involved, the test results, and corrective action taken.
- G. The licensee is authorized to collect leak test samples for analysis by Kevex Corporation. Alternatively, tests for leakage and/or contamination may be performed by persons specifically licensed by the Commission or an Agreement State to perform such services.

Amendment No. 05

(Continued)

CONDITIONS

- 14. The licensee shall conduct a physical inventory every 6 months to account for all sources and/or devices received and possessed under the license. Records of inventories shall be maintained for 5 years from the date of each inventory.
- 15. Each gauge shall be tested for the proper operation of the on-off mechanism and indicator, if any, at no longer than six-month intervals or at such longer intervals as specified by the manufacturer and approved by the Commission or an Agreement State in a registration certificate referred to in 10 CFR 32.210.
- 16. Prior to initial use and after installation, relocation, dismantling, alignment, or any other activity involving the source or removal of the shielding, the licensee shall assure that a radiological survey is performed to determine radiation levels in accessible areas around, above, and below the device with the shutter open. This survey shall be performed only by persons authorized to perform such services by the Commission or an Agreement State.
- 17. The licensee shall operate each device containing licensed material within the manufacturer's specified temperature and environmental limits such that the shielding and shutter mechanism of the source holder are not compromised.
- 18. The licensee shall assure that the shutter mechanism of each device is locked in the closed position during periods when a portion of an individual's body may be subject to the direct radiation beam. The licensee shall review and modify as appropriate its "lock-out" procedures whenever a new device is obtained to incorporate the device manufacturer's recommendations.
- 19. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR 71, "Packaging and Transportation of Radioactive Material."
- 20. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.

License No. 29-19726-01  
Docket No. 030-19158  
Control No. 119434

Pashelinsky Smelting & Refining Corp.  
ATTN: Martin Pashelinsky  
President  
20 Carbon Place  
Jersey City, New Jersey 07305

Dear Mr. Pashelinsky:

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I office, the Licensing Assistance Section, (610) 337-5093 or 5239, so that we can provide appropriate corrections and answers.

Please be advised that your license expires at the end of the day, in the month, and year stated in the license. Until your license is terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Not possess and use materials authorized in Items 6, 7, and 8, on the license until:
  - a. you have constructed the facilities and obtained the equipment described in the license application and supporting documentation; and
  - b. you have notified the U.S. Nuclear Regulatory Commission, Region I, ATTN: Chief, Nuclear Materials Safety Branch, 475 Allendale Road, King of Prussia, Pennsylvania 19406 in writing, that activities authorized by the license will be initiated.
3. Notify NRC, in writing, within 30 days:
  - a. when an authorized user or Radiation Safety Officer, permanently discontinues performance of duties under the license or has a name change; or

OFFICIAL RECORD COPY

ML 10

- b. when the licensee's mailing address changes (no fee is required if the location of byproduct material remains the same).
4. In accordance with 10 CFR 30.36(b) and/or license condition, notify NRC, promptly, in writing, and request termination of the license:
  - a. when you decide to terminate all activities involving materials authorized under the license; or
  - b. if you decide not to complete the facility, acquire equipment, or possess and use authorized material.
5. Request and obtain a license amendment before you:
  - a. permit anyone to work as an authorized user under the license;
  - b. change Radiation Safety Officers;
  - c. order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license;
  - d. add or change the areas of use, or address or addresses of use identified in the license application or on the license; or
  - e. change ownership of your organization.
6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations. A license will not normally be renewed, except on a case-by-case basis, in instances where licensed material has never been possessed or used.

In addition, please note that NRC Form 313 requires the applicant, by his/her signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or certifying official rather than a consultant.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

Pashelinsky Smelting & Refining Corp. -3-

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Thank you for your cooperation.

Sincerely,

**Original Signed By:**

 Attention: Ms. Joanne Stambough

RE: NRC License Number 29-19726-01

Dear Ms. Stambough:

This letter is to inform you that at this date, I Brian Kaplan am the RSO of Pashelinsky Smelting & Refining Corp. I received my training from our prior RSO Joseph Rosenberg who is no longer with our company. As RSO my functions are:

1. See that only authorized personnel have use of the kevex analyzer.
2. Have leak & wipe tests performed by kevex licensed personnel at 6 month intervals.
3. Dosimeter badge checks on all authorized personnel every month.
4. Checking for proper operation of detector shutter & related safety lights.
5. Conduct physical inventory every 6 months to account for all sources, possessed under the license and maintain records for 2 years from the date of each inventory.
6. Posting of proper warning signs & related material.

Enclosed please find check number 6901 in the amount of \$360.00 to cover fee for amendment of the above referenced NRC License.

Very truly yours,

Brian Kaplan  
 Plant Manager

RE: License No. 29-19726-01  
Docket/Reference No. 030-19158

Dear Sir/Madam:

We would like to make the following changes on the above referenced materials license:

1. Condition 1.A. - Licensed material shall be used by, or under the supervision of Ramesh Patel or Brian Kaplan. (Delete H. Joseph Rosenberg who is no longer employed by our Company.)
2. Condition 1.B. - The radiation safety officer for this license is Brian Kaplan. (Again delete H. Joseph Rosenberg.)

Thank you for your assistance.

Very truly yours,

Martin Pashelinsky

Gentlemen:

This refers to your letter dated July 27, 1993, for an amendment to Materials License 29-19726-01.

Your request is subject to an amendment fee of \$410 as specified in fee Category 3P of 10 CFR 170.31 of the enclosed July 23, 1992, Federal Register notice. Payment of the \$410 fee should be made to the U.S. Nuclear Regulatory Commission and mailed to the following address:

U.S. Nuclear Regulatory Commission  
ATTN: Brenda Brown  
License Fee and Debt Collection Branch, OC/DAF  
Mail Stop MNEB 4503  
Washington, D.C. 20555

Your application will be processed by the Region I Licensing staff located at 475 Allendale Road, King of Prussia, Pennsylvania 19406. The fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 118455.

We direct your attention to the enclosed Federal Register notice dated July 20, 1993, regarding revisions to the Commission's fee regulations (10 CFR 170 and CFR 171), which went into effect August 19, 1993. Applications for licensing actions postmarked on or after the effective date will be subject to the revised fees in 10 CFR 170.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application and will void this action.

Sincerely,

Brenda Brown
