MEMORANDUM FOR: George Lear, Chief  
 Hydrological and Geological Engineering Branch

Robert Bosnak, Chief  
 Mechanical Engineering Branch

Franz Schauer, Chief  
 Structural Engineering Branch

FROM: Janis D. Kerrigan, Acting Chief  
 Licensing Branch No. 3  
 Division of Licensing

SUBJECT: NRR TECHNICAL STAFF REVIEW OF BECHTEL POWER  
 CORPORATION WORK PACKAGES

In early September we executed a Task Interface Agreement with Region IV (TIA 82-55, dated September 13, 1982) attached.

I have been advised that all three work packages should be available for NRR review on or before October 4, 1982.

Since the Project Manager will be in Houston during that entire week, it is requested that you arrange for the assigned reviewers to also plant on conducting their respective reviews during the week of October 4.

For coordination and questions, please contact D. Sells (27100), the Project Manager.

TASK INTERFACE AGREEMENT

PROBLEM: NRR Support of South Texas Project Transition

LEAD OFFICE:  IE  NRR  REGION  JOINT

NOTIFICATION:

REFERENCES: Memorandum from DEisenhut to RVollmer, "NRR Support of South Texas Project Transition," dated July 1, 1982

ACTION PLAN:

NRR has been requested to review the following transition work packages that were prepared by Bechtel for the South Texas Project:

- EC-113 Reactor Containment Building IV, Steel, Misc. (SEB)
- EC-161 Essential Cooling Pond (HGEB)
- EC-181 Pipe Whip Restraints Inside Containment (MEB)

Each of the above work packages will require:

- (1) approximately one week at Bechtel facility to perform audit review (estimated to occur in September, 1982);
- (2) prepare requests for additional information as needed;
- (3) prepare technical evaluation for support of Region IV; and
- (4) assist Region IV as requested to complete review.

NRR: Designate Lead Project Manager to meetings, and reports ~~SECRET~~ coordinate correspondence,
