Arkansas Power and Light Company
ATTN: William Cavanaugh III
Senior Vice President -
Energy Supply
Post Office Box 551
Little Rock, Arkansas 72203

Gentlemen:

This refers to your letter of December 10, 1982, which requested the movement of ENS and HPN telephones in the Technical Support Center (TSC). Your letter further requested that the telephones be installed by March 1983 for availability during the scheduled Emergency Preparedness Exercise.

We have forwarded your request to our Telecommunications Branch in Washington, D.C., for action. They informed us that the ENS telephone will be moved as requested, and it will take a minimum of 90 working days to complete the installation. The HPN telephone may not be moved as the NRC is in the process of initiating the changeover of all HPN telephones to FTS service. Region IV will provide more information on this changeover in subsequent correspondence.

Sincerely,

151

W. C. Seidle, Chief
Reactor Project Branch 2
