

OCT 12 1982

Docket No. 030-01241
Inquiry No. 82-01

License No. 06-00560-03
Expiration Date: August 31, 1981

Dr. John Heller
74 Horsham Road
Wilton, Connecticut 06897

Dear Dr. Heller:

Subject: New England Institute

This refers to the telephone discussion between Mrs. T. Darden of this office and yourself on September 21, 1981. The subject of the discussion was the fact that NRC records show that the Byproduct License identified above, which was issued to New England Institute, has expired, and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From these discussions, we learned that you do not have any licensed material in your possession. Therefore, you agreed to take the following actions:

Prepare a statement which explains the results of the contamination level surveys, the method of disposal of the materials, what material was involved, how it was disposed of or to whom it was shipped, when this was done, and information on the final disposition of your sealed sources.

A copy of the statement shall be sent within 30 days of the date of this letter to Region I, U.S. Nuclear Regulatory Commission, Attention: Chief, Materials Radiological Protection Section, 631 Park Avenue, King of Prussia, Pennsylvania 19406.

We request that you give prompt attention to these matters. Should you have any questions regarding them, we would be pleased to discuss them with you.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this Notice are not subject to the clearance procedures of the Office of Management and Budget, as required by the Paperwork Reduction Act of 1980, PL 96-511.

Sincerely,

Original Signed By:

John D. Kinneman, Chief
Materials Radiological Protection
