RANCHO SECO NUCLEAR GENERATING STATION
UNIT NO. 1
PROPOSED AMENDMENT NO. 84

In accordance with Section 50.59 of 10CFR50, the Sacramento Municipal Utility District requests an amendment to Operating License No. DPR-54 for Rancho Seco Unit No. 1. This amendment will allow the District to replace the existing fuel storage racks consisting of 579 storage locations, including three failed fuel container locations, with new high density poisoned storage racks, consisting of 1080 storage locations including four failed fuel container locations.

Submitted herewith as Attachment I to this letter is proposed Amendment No. 84 to change the Technical Specifications for Rancho Seco Unit No. 1 to Accommodate the Modification.

Attachment II to this letter is the Licensing Report consisting of the design and associated safety analysis for this proposed modification.

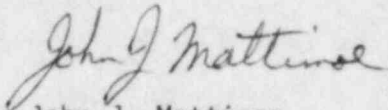

Fabrication of the High Density Racks is scheduled to start in August 1982, with delivery in September 1983. The replacement of the racks is scheduled for the fourth quarter of 1983.
