June 1, 1994

Docket No. 50-193

Mr. Marvin Mendonca, Senior Project Manager  
Non-Power Reactors, Decommissioning and  
Environmental Project Directorate  
Division of Reactor Projects - III/IV/V  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Mendonca:

Enclosed you will find a copy of the proposed Emergency Core Cooling System for Facility License No. R-95. This system would enable the reactor power rating to be increased to 3 megawatts when a larger primary cooling pump is installed. Revisions to sections of the Safety Analysis Report that are effected by this modification are enclosed. If there are any questions, please call me at 401-789-9391.

Sincerely

  
Terry Tehan  
Director
