Dear Mr. Volmer:

SUBJECT: NRC STAFF REVIEW AND APPROVAL OF REVISION 27 OF THE SIEMENS POWER CORPORATION - NUCLEAR DIVISION (SPC) QUALITY ASSURANCE PROGRAM TOPICAL, EMF-1A, DATED MAY 26, 1994

We have reviewed your proposed Revision 27 of the Siemens Power Corporation - Nuclear Division (SPC) QA Program Topical, EMF-1A, which was submitted with the letter of May 27, 1994, from Mr. D. K. Perry of your staff in accordance with the requirements of 10 CFR 50.4(b)(7)(ii). The quality assurance program description contained in your submittal was reviewed in accordance with the acceptance criteria provided in Chapter 17 of NUREG-0800, "Standard Review Plan".

Since the changes described in your proposed revision will not effect a reduction of the commitments made in the quality assurance program description previously approved by the NRC, and all quality assurance functions and their required organizational independence have been retained, we have determined that the proposed changes are acceptable and that the revised program incorporating such changes will continue to meet the criteria of Appendix B to 10 CFR 50.

Please issue a copy of this letter to all holders of Siemens Power Corporation - Nuclear Division (SPC) QA Program Topical, EMF-1A.

Any questions should be addressed to Juan Peralta of my staff on (301) 504-1052.
