SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
REVISION 7 TO THE SHNPP SECURITY PLAN

Gentlemen:

In accordance with the Code of Federal Regulations, Title 10, Part 50.54(p)(2), Carolina Power & Light Company hereby transmits the original and three copies of select pages of Revision 7 to the Security Plan for the Shearon Harris Nuclear Power Plant.

The attached revision reflects the removal of the Administration Building from the Protected Area and identifies an exception to the 20 ft. isolation zone in the area between the Administration Building and the Security Building. This revision also reflects the reduction of selected security doors throughout the plant. Protected and Vital Area drawings were revised accordingly.

This revision also adds the ability for an individual who changes employers to maintain the same security badge for an interim period pending administrative processing if stated criteria are met. Further, this revision incorporates various organizational and title changes and minor typographical and editorial changes.

These changes do not decrease the effectiveness of the Security Plan.
