Docket No. 50-335

June 28, 72

Mr. George Kinsman
Senior Vice President
Florida Power & Light Company
P.O. Box 3100
Miami, Florida 33101

Dear Mr. Kinsman:

You will find enclosed the Atomic Energy Commission's guide for submission of benefit and cost information in applicants' environmental reports for defined classes of completed or partially completed nuclear facilities. This guide takes into account comments received from a draft which was issued for public comment in January 1972.

The information identified in the attached guide is required by the Regulatory Staff in their analysis of the environmental impact of the facility, as specified in Appendix D of 10 CFR Part 50. You are requested to submit the information described in this guide, as it relates to the nuclear power facility referenced at the bottom of this letter, within a period of six (6) weeks from receipt of this letter. In the event that portions of the information have already been submitted to the AEC in your environmental report or supplements thereto, only that information that has not yet been submitted is required. Three hundred (300) copies of the submittal will

be required in accordance with the basic procedures defined in the regulations.

Sincerely,

A. Giambusso
