and Licensee Performance, NRR

FROM: Richard P. Correia, Chief
Performance Evaluation Section B
Performance and Quality Evaluation Branch
Division of Reactor Inspection
and Licensee Performance, NRR

SUBJECT: MEETING SUMMARY — MAY 18, 1994 NRC/NEI PUBLIC MEETING ON NEI
PROPOSED RESPONSES TO QUESTIONS SUBMITTED DURING THE AUGUST
1993 NUMARC WORKSHOPS ON THE INDUSTRY GUIDELINE DOCUMENT FOR
THE IMPLEMENTATION OF THE MAINTENANCE RULE (10 CFR 50.65)

The subject meeting was held at the NRC Headquarters Offices. This meeting was a follow up to the meetings held on February 17 and 18, 1994. The meeting notice is provided as Enclosure 1 and the list of attendees is provided as Enclosure 2.

The purpose of the meeting was to continue discussions regarding NEI's (formerly NUMARC) proposed responses to questions submitted during the two NUMARC-sponsored workshops held in August 1993 on NUMARC 93-01, "Industry Guideline for Monitoring the Effectiveness of Maintenance at Nuclear Power Plants."

NUMARC received in excess of 700 questions on NUMARC 93-01 during the two workshops. Due to redundancy and similarities, the number was consolidated to approximately 450. During the February 17 & 18, 1994 meetings, NRC staff members who had attended the NUMARC workshops reviewed the proposed responses to each question. During the May 18, 1994 meeting, the NRC staff reviewed the changes that NEI had made to address the staff's comments it had provided at the earlier meetings.

May 27, 1994

In general, the staff felt that the revised responses were comprehensive and consistent with the guidance contained in NUMARC 93-01. Based on the discussions between the staff and the NEI representatives during the May 18, 1994, meeting, NEI plans to make additional revisions to several responses, submit the revised responses to the NRC for a final review, and issue the questions and responses as workshop proceedings.
