U.S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region V
1450 Maria Lane, Suite 210
Walnut Creek, California 94596-5368

Attention: Mr. R. H. Engelken, Regional Administrator

Dear Sir:

Subject: Docket Numbers 50-206, 50-361, and 50-362
IE Inspection Report Nos. 50-206/83-03, 50-361/83-04,
and 50-362/83-05
Response to Notice of Violation
San Onofre Nuclear Generating Station, Units 1, 2 and 3

Reference: Letter, R. Dietch (SCE) to R.H. Engelken (NRC),
"Response to Notice of Violation", dated March 4,
1983

It has come to my attention that the referenced letter has been viewed as a denial of the violation identified in the subject Inspection Report. The referenced letter was not and is not intended to be a denial. Rather, we agree that residential use of trailers in the State Parks was not evaluated and reported in a timely fashion. Accordingly, the reference letter provided what we consider to be appropriate and adequate corrective action.

The purpose of our discussion in the referenced letter was to continue a dialogue initiated during Mr. Yunas' inspection to ensure we fully understand how to interpret the Action Statement associated with Technical Specification 3.12.2 and in particular, definition of the term "resident."

We are anxious to continue dialogue concerning proper application of the above-identified Action Statement. (Please let me know if inclusion in the referenced letter is an inappropriate means to do so.)

If you require any additional information, please so advise.

Sincerely,

Robert Dietch
