1515 Mineral Square  
Salt Lake City, UT 84147

Gentlemen:

This is in reference to retired License No. SUA 1106 and the recent decontamination activities at your Bingham Canyon Mine facilities.

As we have discussed, your license files were apparently closed by NRC after the license expired in 1976, without a close-out survey being completed by you or by NRC inspectors. Based on the description provided by you of your decontamination and final radiation surveys, and the results of our close-out inspection conducted on August 13, 1982, we have concluded that your facility meets our criteria for unrestricted use.

A copy of all documents related to your license will be retained in the Public Document Room located at 1717 H Street, NW, Washington, DC.

Please feel free to contact us if we can be of further assistance.

Sincerely,

J. Bruce Carrico  
Material Licensing Branch  
Division of Fuel Cycle and  
Material Safety
