Mr. J. C. Malaro, Assistant Chief
Materials Branch
Division of Materials Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

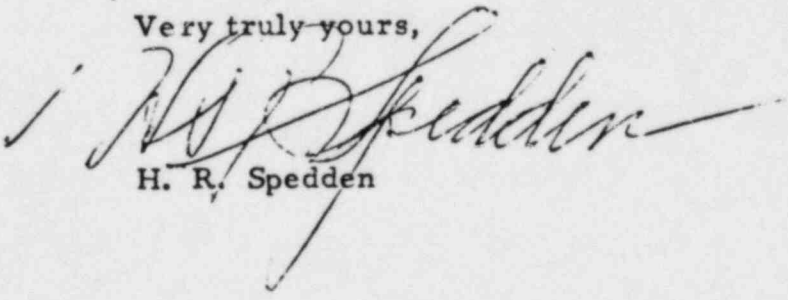

Dear Mr. Malaro:

Please consider this letter in application for amendment of Source Material License No. SUA-1106 (Docket No. 40-8111) as follows:

- Item 7: Amend to read--50 kilograms
- Item 8A: Delete
- Item 8B: Amend to read, "For storage only of refined uranium at licensee's MMD-Research Center, 1515 Mineral Square, and at pilot plant site at Bingham Canyon Mine, Utah".

Pilot plant operations have been discontinued, and license for storage of refined product is all that is required for 1974. Please advise us of any change in category of Title 10, Chapter I incurred as a result of this amendment.

Very truly yours,

H. R. Spedden
