Washington, D. C. 20585

Dear Mr. Hart:

Enclosed is a letter from Transnuclear regarding their request of March 29, 1983 to amend export license XSNM01982 to authorize the export of Australian-origin material.

The actual quantity of material scheduled for export in May 1983 is as follows:

8,391 Kgs uranium, under DOE contract UES/EU/20,
is of Australian origin

10,277 Kgs uranium, under DOE contract 4724-DUE,
is of U.S. origin

Please consider this in conjunction with our letter to you dated March 31, 1983.

Sincerely,

A handwritten signature in dark ink, appearing to read "James V. Zimmerman".

James V. Zimmerman, Assistant Director
Export/Import and International Safeguards
Office of International Programs
