Dear Mr. Wiedeman:

Our tritium source NRC License No. 12-12965-01 was moved from 531 E. Sangamon Avenue to 801 E. Sangamon Avenue. This move was necessitated because of the Department's move into new lab and office facilities. We failed to notify you because we assumed a move meant from one source to another but obviously it does not. The move was made June 15, 1982.

If the source is removed from our vault, rest assured you will be notified of its location.

Thank you for calling this matter to our attention.

Very truly yours,

Robert L. Schwarberg,
Bureau Chief-Laboratories.
