"A LIFT FROM THE PAST; A RISE TO THE FUTURE"

September 10, 1982

Mr. D.G. Wiedeman, Chief
Materials Radiation Protection Section I
United States Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, IL 60137

Dear Mr. Wiedeman:

Your letter of August 24, 1982 citing a notice of violation regarding NRC Byproducting Material License No. 24-16338-01 has been received as noted.

We have reviewed with the chairman of the Medical Isotopes Committee the necessity of conducting regular meetings on at least a quarterly basis. We have scheduled a meeting of this committee for this calendar quarter and will continue such meetings in the future in order to maintain compliance with this requirement.

Yours truly,

Robert Reed
Acting Chief Executive Officer
