0 2	On August 16, 1982, a maintenance outage for the 1/2B Diesel Fire Pump exceeded
0 3	the seven day limit as specified in Technical Specification 3.12.B.2 Redundant
0 4	fire system water was supplied during this time by the 1/2A Diesel Fire Pump, the
0 5	Service Water System, and a 3160 gallon per minute portable Diesel Fire Pump.
0 6	Procedures are provided for operation of this equipment. Thus, there is no
0 7	significant affect on safe plant operation associated with this occurrence.
