Dear Mr. Liberman:

SUBJECT: ROUTINE INSPECTION NOS. 030-10860/94-001 AND 030-09831/94-001

On May 9 and 12, 1994, James P. Dwyer of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC licenses. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with you, Mr. Robert Varnerin, and Mr. Ron Slade at the conclusion of the inspection.

Within the scope of this inspection, no violations were identified. The inspector concluded that you have excellent control of your licensed radiation safety program, particularly in the areas of: security of licensed materials; training of radiation workers and University ancillary staffs; control of the purchase and receipt of radioactive materials; control of personnel dosimetry; and control of radioactive waste.
