

APPENDIX A

NOTICE OF VIOLATION

Washington Public Power Supply System  
Washington Nuclear Project-2

Docket: 50-397  
License: NPF-21

During an NRC inspection conducted on May 16-20, 1994, one violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

Technical Specification 6.8.1 requires, in part, that written procedures be established, implemented, and maintained covering the fire protection program implementation.

Administrative Procedure 1.3.10, "Fire Protection Program Implementation," Revision 15, requires that temporary wood/blocking used in the plant shall be treated with a Underwriters' Laboratory listed pressure impregnated fire retardant process, if possible. As a minimum, it shall be treated with a painted on, flame retardant.

Contrary to the above, on May 18, 1994, the inspector observed wood stored on elevation 501 foot inside the reactor building. This wood was not treated or painted with a flame retardant.

This is a Severity Level IV violation (Supplement 1) (397/9418-01).

Pursuant to the provisions of 10 CFR 2.201, Washington Public Power Supply System is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Arlington, Texas  
this 8<sup>th</sup> day of June 1994
