License No. 12-02530-02 30-0158
License No. 12-02530-03 30-1432

Gentlemen:

This refers to the routine safety inspection conducted by Mr. W. P. Reichhold of this office on September 27-30, 1982, of activities authorized by NRC Byproduct Material Licenses No. 12-02530-02 and No. 12-02530-03 and to the discussion of our findings with you and Mr. Richard Goodman, M.S. at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated April 7, 1980, regarding apparent items of noncompliance found during our December 11-14 and 18-20, 1979, special inspection. We have no further questions regarding these matters.

No items of noncompliance with NRC requirements were identified during the inspection of License No. 12-02530-02. During the inspection of License No. 12-02530-03, certain of your activities appeared to be in noncompliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
