Nuclear Regulatory Commerce

Dear Mr. Bowyer:

Please consider this our request to ammend regulatory license #12-12908-02 to include the following:

- 1: (7) Texas Nuclear models 5190 sealed source units.

These units use Cesium-137 as their source material and no single source to exceed 22 millicuries.

Our existing license is for similar units used for similiar purposes and all units contain Cesium-137.

Should you require additional information or have any questions please do not hesitate to contact Ben Dillard cr myself.

Sincerely,

Chuck Neubich
General Foreman
