Toledo, Ohio 43652

Gentlemen:

We have received a copy of your application dated November 5, 1982, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain changes to Technical Specifications 3.03 and 4.03 for the Davis-Besse Nuclear Power Station Unit No. 1. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate for the November 5 application since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the additional sum of \$2,800 to this office. If the ONRR staff's final review of your application reveals that the Class III fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by  
Reba M. Diggs
