Chairman's Comments on SECY-94-066

I approve staff recommendations 1.a. and 1.b. I do not approve recommendation 1.c., not revising the interpretation of the FSAR update rule to include the entire CLB. Whether to include the CLB in the update rule should be considered after the completion of Items 7, 8, 9, and 54 of the RRG Implementation Plan.

On Recommendation 2, I agree with the staff that adopting the OPP definition of CLB for current plants will not likely pass the backfit analysis. However, the staff should reevaluate the position taken on Item 45 of the RRG Implementation Plan and consider whether a new regulatory approach would be of benefit for new plants.

I agree with staff Recommendation 3.
