7751 Colonel Glenn Highway
Dayton, Ohio 45435

License No. 34-11912-03

43025160

Gentlemen:

This refers to the special safety inspection conducted by Mr. S. R. Lasuk of this office on August 18-19, 1982, of activities at the Bob Hipple Laboratory for Cancer Research and Wright State University authorized by NRC Byproduct Material License No. 34-11912-03 and to the discussion of our findings with Messrs. Atwater and Hagan at the conclusion of the inspection and to our written request for additional information from the WSU Radiation Safety Committee dated August 24, 1982 and the Committee's response dated September 27, 1982.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The inspection included efforts to determine whether or not certain allegations concerning activities at the Bob Hipple Laboratory could be substantiated. One allegation was substantiated upon receipt of your letter dated September 27, 1982, signed by Dr. A. V. Rake; this resulted in the item of noncompliance shown in the enclosed Appendix.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
