R. H. LEASBURG  
VICE PRESIDENT  
NUCLEAR OPERATIONS

October 21, 1982

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
Attn: Mr. Robert A. Clark, Chief  
Operating Reactors Branch No. 3  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Serial No. 450A  
PSE&C/HSM:acm  
Docket Nos. 50-338  
50-339  
License Nos. NPF-4  
NPF-7

Gentlemen:

ADDITIONAL INFORMATION  
PROPOSED OPERATING LICENSE AMENDMENTS NPF-4 AND NPF-7  
NORTH ANNA POWER STATION UNIT NOS. 1 AND 2

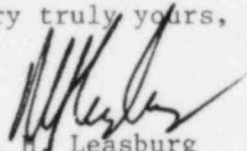

In our letter of August 20, 1982, Serial No. 450, Veeco requested an amendment to Operating Licenses NPF-4 and NPF-7 to allow the installation and use of neutron absorber spent fuel storage racks in the North Anna 1 and 2 spent fuel pool. In support of this request, we forwarded the report, "A Summary of Information in Support of Increasing the Spent Fuel Storage Capacity at North Anna Unit Nos. 1 and 2". We have identified an item in this report which must be corrected.

Table 7-1 is a tabulation of fuel pool temperatures for different heat load cases. A number of minor temperature changes have been identified. A new Table 7-1 is therefore attached.

These temperature changes do not change the safety analysis or the conclusion of the safety analysis for the proposed Operating License Amendments.

If further information is required on this matter, we would be pleased to meet with your staff at their convenience.

Very truly yours,

  
R. H. Leasburg

A001

VIRGINIA ELECTRIC AND POWER COMPANY TO Harold R. Denton
