Re: McGuire Nuclear Station
Docket Nos. 50-369 and 50-370
Request for Relief from ASME Code Section XI Requirement Determined
to be Impractical

Dear Mr. Denton:

My March 11, 1983 letter submitted a request for relief from hydrostatic testing requirements on the Feedwater Systems to the Units One and Two steam generators. The proposed reliefs are considered to be a Class III amendment pursuant to 10 CFR 170.22. Therefore, enclosed is a check in the amount of \$4,000 which was inadvertently omitted from the submittal.

Very truly yours,

H.B. Tucker / BT

Hal B. Tucker
