Dear Division of Freedom of Information Act

I note in the NEW YORK TIMES, Tuesday, June 1, 1993, page A10 reference to a recently issued report to nuclear plants on instrumentation to monitor water levels in reactors.

I would like very much to obtain a copy of this report, since as a chemist/professional chemical engineer I am very interested in the safety of reactors and all other aspects of radiation.

If you can inform me how I may obtain this and related reports under the Freedom of Information Act, I would be very grateful indeed.

Most respectfully,
Howard H. Fawcett, P.E.
