Inspection Summary

Inspection on March 22-25, 1983 (Report No. 50-254/83-23(DRMS))

Areas Inspected: Material control and accountability including facility organization and operation, measurement and statistical control, storage and internal controls, shipping and receiving, records and reports, inventory and inventory verification and management of the materials control system. The inspection involved 44 inspector-hours onsite by two NRC inspectors and was begun during the regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the seven areas examined during the inspection.
