Mr. Charles E. MacDonald
Chief, Transportation Certification Branch
Division of Fuel Cycle and Material Safety
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

REF: Docket No. 71-9135

Dear Mr. MacDonald:

We acknowledge with thanks your prompt response to our error notice for the Model C-10 shipping package (your letter, March 29, 1983, ref. 71-9133). We are somewhat chagrined to report that we have only just now observed the same identical typographical error on page 5 of the safety evaluation dated April 30, 1982, for the Century model radiography devices (71-9135). Line 4 of the paragraph labeled "THERMAL" should read "...melt temperatures above 1475°F..." Will you please correct this for us, also?

We appreciate your help and interest.

Respectfully submitted,

Donald H. Riddle
