Docket No. 40-8674

Plateau Resources, Inc.  
ATTN: Mr. Fred W. Gerdeman  
772 Horizon Drive  
Grand Junction, Colorado 81501

Dear Mr. Gerdeman:

We have received your letters of March 2 and 3, 1983, informing us that your semi-annual effluent monitoring reports (for July 1, 1982 through December 31, 1982) for Docket Nos. 40-8698, 40-7869, and 40-8674 will not be submitted in accordance with the time limits specified in 10 CFR 40.65.

We understand that the monitoring data was not submitted because of delays occurring at an outside laboratory where samples had been sent for analysis. We further understand that the samples had been collected by your company in a timely manner.

Based on these understandings, we are granting an extension for submittal of the required reports. Please note that we expect that you will remedy the problems that have caused you delays in the past, and that future reports will be submitted in a timely manner.

This extension should be considered a one-time occurrence, and further extensions will not be granted. Accordingly, we will require that your semi-annual effluent monitoring reports for the last six months of 1982 be submitted by April 15, 1983.
