William J. Cahill, Jr.
Group Vice President

U. S. Nuclear Regulatory Commission
Attn: Document Control Room
Washington, DC 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
REQUEST FOR INFORMATION REGARDING STATE AND
LOCAL GOVERNMENT EXERCISE PARTICIPATION

- REF: (1) Letter to U. S. Nuclear Regulatory Commission
from Mr. W. J. Cahill, Jr. dated May 6, 1994,
logged TXX-94132
- (2) Letter to U. S. Nuclear Regulatory Commission
from Mr. W. J. Cahill, Jr. dated February 8, 1994,
logged TXX-94040

Gentlemen:

In response to a request for additional information from Mr. D. Barss of the NRC staff concerning reference (1), which provided notification for cancelling the emergency exercise which was scheduled for May 11, 1994 at CPSES, please be advised that TU Electric verbally discussed county participation with the local officials prior to setting the objectives for the subject exercise. These objectives were submitted to NRC via reference (2). As is typical in a year when the State of Texas exercises with the South Texas Project and not with CPSES (e.g., 1994), the local governments pertinent to CPSES declined to participate in the subject exercise.

Sincerely,

William J. Cahill, Jr.
