Dear Mr. Denton:

Reference (a) transmitted the subject license amendments, which deleted the non-radiological water quality requirements from the Zion Technical Specifications. In that transmittal, the NRC requested that Commonwealth Edison commit to informing the NRC of any changes and violations of the Station's NPDES permit. Commonwealth Edison hereby agrees to provide the NRC with copies of such changes and violations at the time this information is reported to the permitting agency (State of Illinois EPA). Instructions have been incorporated into our NPDES reporting procedures to ensure the performance of the requested notifications.

Please address questions regarding this matter to this office.

Very truly yours,
