OPERATING LICENSES

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 67 and 72 to Facility Operating License Nos. DPR-24 and DPR-27 issued to the Wisconsin Electric Power Company (the licensee), which revised the license for operation of the Point Beach Nuclear Power Plant, Unit Nos. 1 and 2 (the facility) located in Manitowoc County, Wisconsin. The amendments are effective as of the date of issuance and are to be implemented in accordance with the provisions 10 CFR 73.55(b)(4) and Appendix B.

The amendments add license conditions to include the Commission approved Security Force Training and Qualification Plan as a part of the licenses.

The licensee's filing, which has been handled by the Commission as an application, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards condition.

The Commission has determined that the issuance of the amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

The licensee's filings dated April 7, 1981, July 28, 1981 and August 6, 1982 consist of Safeguards Information required to be protected from public disclosure pursuant to 10 CrR 73.21.
