Dear Sir:

The NRC was notified of a potentially reportable deficiency in Reference (A), and an Interim Report was transmitted by Reference (B). At that time, it was estimated that a Final Report would be available by April 14, 1983.

Due to the extensive evaluation required, it is now expected that this information will be finalized by May 4, 1983, when a complete report will be submitted.

There is no change to the Interim Report at this time.

Very truly yours,
