NRC Comm. mtg.

MEMORANDUM FOR: Chairman Palladino
Commissioner Gilinsky
Commissioner Ahearne
Commissioner Roberts
Commissioner Asselstine

FROM: William J. Dircks
Executive Director for Operations

SUBJECT: FINAL POLICY AND PLANNING GUIDANCE PERFORMANCE
REPORT, FY 1982

Attached for your review is the final Policy and Planning Guidance Report for FY 1982. The Report stems from the Commission's "FY 1983-87 Policy and Planning Guidance" which requires that:

"...the EDO develop and provide a management system for the Commission to keep track of the major 1982 program accomplishments and resource expenditures that support this policy and planning guidance."

The Report contains results for the fourth quarter, and, in large measure, summaries for the year. The intent of the Report is to highlight major planned accomplishments to identify potential problems. Please note that no resource expenditures are included in this issue of the Report. They were deleted in order to allow the Report to be published much earlier than is possible by reporting expenditures. If you have any questions about information in the Report, please let me know.

Executive Director for Operations
