Gentlemen:

**DOCKET NO. 50-483**  
**CALLAWAY PLANT**  
**OPERATING QUALITY ASSURANCE MANUAL, REV. 17**

Reference: 1) ULNRC-2809, Dated June 9, 1993

Furnished herewith for your review and approval is a copy of updated pages which constitute revision 17 of the Callaway Plant Operating Quality Assurance Manual (OQAM). Pursuant to the requirements of 10CFR50.54(a) and 10CFR50.71(e)(3)(i), the OQAM has been revised to incorporate changes to the Operating Quality Assurance Program (OQAP) description made since the last docketed revision transmitted by Reference 1.

In addition to revision 17 updated pages, please find enclosed one copy each of the following:

1. OQAM (revision 17) mark-up, identifying changes through the use of inserts and strikeovers.
2. Explanation and justification for the changes.

This revision has been evaluated by Union Electric. The changes are not considered reductions in the OQAM commitments previously accepted by the NRC. The revised OQAM continues to satisfy the requirements of 10CFR50, Appendix B.

If you have any questions, please contact us.

Very truly yours,

Donald F. Schnell
