Attention: Mr. John T. Collins, Jr.

Enclosure: Four (4) copies of SAI Proposal No. 1-132-71-800-21

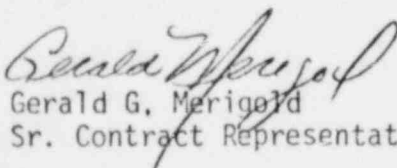

Dear Mr. Collins:

Science Applications, Inc., is pleased to submit for your consideration an unsolicited proposal entitled, "Demonstration of a Reactor Containment Building Emergency Noble Gas Recovery Process."

Some of the information contained in the proposal has been categorized as "Applied Technology" and its disclosure to third parties is restricted. Also, other information is considered SAI proprietary, so distribution of the Technical Volume of the proposal should be done with discretion.

Should you have any questions of a technical nature, please refer them to Dr. D. T. Pence at (714) 455-5220. Contractual questions and negotiation discussions will be handled by the undersigned as the delegated authority to propose and commit SAI. I may be reached at (714) 452-9150, extension 267.

Very truly yours,

  
Gerald G. Merigold  
Sr. Contract Representative
