DOCKET NO: 50-267

SUBJECT: Transmittal of Requested Nuclear
Detector Decalibration Documentation

REFERENCE: (1) NRC letter, Madsen to Lee,
dated 2/28/83 (G-83081)

Dear Mr. Collins:

Enclosure 3 of Reference 1 itemized additional documentation required by Lawrence Livermore National Laboratory (LLNL) concerning Nuclear Detector Decalibration.

PSC's document control procedures require that plant documents be revised after the modification is approved and installation has begun. Since this modification is not yet approved, the existing drawings described in Enclosure 3 do not reflect the proposed change.

PSC is currently preparing the requested documentation and will forward it to you within 30 days. At that time PSC will also provide a commitment to include limitations in the Technical Specifications as deemed necessary.

Very truly yours,

H. L. Brey, Manager
Nuclear Engineering Division
