Docket No. 50-293

Boston Edison Company M/C Nuclear
ATTN: Mr. William D. Harrington
Senior Vice President, Nuclear
800 Boylston Street
Boston, Massachusetts 02199

Gentlemen:

Subject: Inspection No. 50-293/81-21

This refers to your letter dated April 8, 1982, in response to our letter dated March 9, 1982.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

We have reviewed your comments concerning the recurrence of item A in the Appendix to our letter. Because access to the area was controlled and personnel were properly instructed in the radiation levels within the area, we concur that this instance is not recurrent. Our records will be amended to reflect this change.

Your cooperation with us in this matter is appreciated.

Sincerely,
