Docket No. 50-146

Ms. Lila Pennell
Librarian
Saxton Community Library
911 Church Street
Saxton, PA 16678

Dear Ms. Pennell:

Please find enclosed documents to start the Saxton Facility local public document room (LPDR) collection. As additional publicly available materials are generated, they will be sent to you to be added to the collection.

As stated in my March 8, 1983, letter, this LPDR was set up for materials concerning the decommissioning and dismantling of the Saxton Facility. The collection picks up from the point of the 1979 Annual Report where the possibility of dismantling is first discussed. Also, copies of the original operating license no. DPR-4 dated February 29, 1964, and the document which changes the operating license to a possession only license dated August 15, 1972, are included.

As Sandra Schlosser discussed with Carolyn Fuller recently, some of the older material (prior to 1979) is available on microfiche. We have enclosed a set for you. Please keep in mind, however, that everything was not microfiched.

The LPDR program does provide a separate microfiche collection which includes NUREG reports, Nuclear Regulatory Issuances (NRCIs), Regulatory Guides, Hearing Transcripts, and the NRC Rules and Regulations. A set of each of these is enclosed and as updates are available, they will be sent to you.

The following material is also being sent to you at this time:

1. Filing supplies (files and folders with category labels)
2. LPDR Users Guide (includes filing instructions, file category breakdown, etc.)
3. Index to Plant Related Documents (index to the paper-copy collection)
4. Indices to NRC Microfiche Collections Notebook
5. Citizen's Guide to U. S. Nuclear Regulatory Commission Information
6. File Categorization Cards
