Dear Mr. Scurry:

In accordance with Section 3507 of Public Law 96-511 of December 11, 1980, and regulations of the Office of Management and Budget, I am enclosing for OMB review the extension package containing copies of Standard Form-83 and the Supporting Statement for 10 CFR 51, Licensing and Regulatory Policy and Procedures for Environmental Protection.

The estimated respondent burden is 117,900 hours, which represents a reduction of 329,100 hours from the previous submission. This reduction is due to lack of new applications for construction permits.

In accordance with NRC's procedures, my staff has made an independent review of the practical utility and necessity for the proposed information collection and we are in concurrence with this proposal. We have also reviewed for duplication and found no similar requirement in the agency. Therefore, we are transmitting this material for appropriate OMB review and approval.

Sincerely,

Patricia G. Norry
