

October 29, 1991

U.S. Nuclear Regulatory Commission
License Fee & Debt Collection Branch '91 NRC -A AP:46
Washington, D.C. 20555

Dear Madam or Sir,

I was very disappointed after verifying with Ms. Cheryl Philips that we would be required to pay an additional fee of \$1500.00 annually in order to continue being licensed by the NRC. It is ludicrous to be forced into paying such a large annual fee in addition to the renewal fee.

Enclosed is a copy of my application, effective January 25, 1991, along with a copy of my check for \$400.00. If we would have known at the time of application that this fee was to be assessed, we would not have applied for a renewal. If our license is revoked for nonpayment of this fee, please refund to O'Dea Medical Sales our \$400.00 renewal fee.

It is a sad day in America that Congress can't find other ways to reduce the debt they created. This type of action will only drive more small businesses out of business.

Last May I experienced the Egyptian government assessing similar type fees when we tried to bring materials into Egypt for an educational seminar. Do we want American business to be controlled by the government and the self-interest/non productive bureaucrats like in Egypt, or do we want to maintain private enterprise controlled by the people.

I look forward to hearing that Congress repeals this outrageous annual fee.

Very sincerely,

Michael J. O'Dea
