Inspection Summary

Inspection on April 5 - 6, 1983 (Report No. 50-264/83-01(DRMS))

Areas Inspected: Material control and accountability including facility organization and operation, measurement and statistical control, storage and internal controls, shipping and receiving, records and reports, inventory and inventory verification. The inspection involved 18 inspector-hours on-site by two NRC inspectors and was begun during the regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the six areas examined during the inspection.
