Security Affairs
Office of International Security
Affairs
U.S. Department of Energy
Washington, D.C. 20585

Dear Mr. Griffin:

Enclosed please find an application from Marubeni America Corporation for a license to export depleted uranium hexafluoride to Japan as test material in the start-up operation of its UF₆-UO₂ conversion plant. The proposed export does not require Executive Branch review, however, a letter of assurance is required that the material will be subject to all of the terms and conditions of the Agreement for Cooperation between Japan and the United States. Your assistance in obtaining the necessary assurance letter will be appreciated.

Sincerely,

A handwritten signature in cursive script, appearing to read "James V. Zimmerman".

James V. Zimmerman, Assistant Director
Export/Import and International Safeguards
Office of International Programs

Enclosure:
