Revision to License Amendment Request Dated January 29, 1993  
Core Exit Thermocouple Action Statement Changes

Attached is a revision to the January 29, 1993 License Amendment Request which proposed the addition of specific action statements to Section 3.15.A of the Technical Specifications for the core exit thermocouples. This revision incorporates changes which resulted from NRC Staff review comments on the proposed changes.

Exhibit A for the original License Amendment Request, which contained the description of the proposed changes, the reasons for requesting the changes, the supporting safety evaluation and the significant hazards determination, has been revised to incorporate the proposed revisions. The revisions to Exhibit A are denoted by sidebars. The proposed revisions do not change the conclusions of the original significant hazards evaluation.

Exhibit B contains marked up Technical Specification pages with the original proposed changes and all revisions incorporated. Exhibit C contains the revised Technical Specification pages with the original proposed changes and all revisions incorporated. Exhibit D consists of the Technical Specification pages submitted by the original January 29, 1993 License Amendment Request, marked up to indicate the changes being incorporated into the pages by this revision.
