MEMORANDUM TO: Vernon S. Kerr, Chief, Telecommunications Branch

FROM: John T. Collins, Deputy Director, TMI Technical Support Staff

SUBJECT: TELEPHONE NETWORK EVALUATION DURING INCIDENT RESPONSE ON  
FEBRUARY 11, 1980

At my request I asked my staff to put together a list of problems we encountered with the telephone system at TMI during the incident on February 11, 1980. Attached for your review is a memo from George Kalman to me dated February 13, 1980 in which he has summarized these problems. Following your review I would like to meet with you and your staff to determine what can be done to minimize these problems in the future. Your immediate attention in this matter would be appreciated.
