Solid Waste

NOTE TO: J. Collins, Deputy Program Manager

FROM: R. Bellamy

SUBJECT: Solidifying Epicer II Resins

I have reviewed the Hittman Test Program for solidifying the resins from EPICOR-II in HNOC-TMI-11-30019, and conclude that R. Weller's questions to A. Naway (GPO) of May 1 adequately cover the areas of concern. We are awaiting a redraft of the subject report. We have agreed it is not necessary to review all screening tests, but will be kept informed of progress.

R. Bellamy

5/19/80

I called A. Naway who says the next draft is on the way over to us now.
